CIVIC ORGANIZATIONS

A community is made up of many factors—all important to a progressive atmosphere conducive to growth and the pride of its citizens.

The religious, fraternal, charitable, service and social organizations of a community are an important and integral part of a full and interesting life for its citizens.

For newcomers, they are factors that make for ready assimilation into the religious, civic and social life of the community and hasten the time required to make citizens and friends of the strangers who come to us.

You are invited to join and participate in our community life through these organizations.

CIVIC ORGANIZATIONS

A community is made up of many factors—all important to a progressive atmosphere conducive to growth and the pride of its citizens.

The religious, fraternal, charitable, service and social organizations of a community are an important and integral part of a full and interesting life for its citizens.

For newcomers, they are factors that make for ready assimilation into the religious, civic and social life of the community and hasten the time required to make citizens and friends of the strangers who come to us.

You are invited to join and participate in our community life through these organizations.

MANCHESTER

NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right even" after street description indicates even numbers on right side of street.

The symbol □ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publisher's cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

Please Note the Zip Code for the Town of Manchester is 01944.

FISHING IN THE RIGHT SPOT?

Have you ever noticed a dejected fisherman sitting for hours, without even a nibble — and the small boy fifty feet away pulling in the big ones?

It's just a case of fishing in the right spot. The directory is the right spot for your advertising — it will produce the results — the big ones.

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

CIVIC ORGANIZATIONS

A community is made up of many factors—all important to a progressive atmosphere conducive to growth and the pride of its citizens.

The religious, fraternal, charitable, service and social organizations of a community are an important and integral part of a full and interesting life for its citizens.

For newcomers, they are factors that make for ready assimilation into the religious, civic and social life of the community and hasten the time required to make citizens and friends of the strangers who come to us.

You are invited to join and participate in our community life through these organizations.
